**Finish Date**

30.04.2024

**Value**

£1,600,000.00

**Form of Contract**

Framework with QTS

### Project Description

Aspen Ward is a 16-bed single sex acute mental health inpatient facility that is to be formed on the ground floor of the MIU building at the Park Royal Centre for Mental Health. The area to be remodelled is a mixture of offices and a segment of 6 bedrooms being reassigned from the adjacent Pond Ward.

The new ward will provide contemporary sleeping accommodation all with en-suite wc/ shower facilities, and support accommodation that is compliant with Department of Health and Care Quality Commission guidelines.

### Challenges Overcome

1. Working within a mental health.
2. Very noisy work within a mental health setting when installing drainage internally.
3. Adding down time during working hours to allow the service users time to rest.
