Start Date

18.03.2022

Finish Date

21.04.2023

Value

£466,000.00

Form of Contract

JCT

Project Description

Acting as a main contractor we know that working around an operational healthcare environment demands a careful and considerate construction specialist. We have extensive experience within the healthcare sector and know how to carefully work around sensitive hospital activities.

This is the reason why GD Construction were chosen to refurbish 6 operating theatres, associated corridors, toilets and staff rooms. The six theatres are situated on the 5th floor of the hospital which only added to the challenge. GD completed the £466k refurbishment in 14 days to the delight of all the hospital staff.
